Product Code	Product Name	
CA05-	Isopropyl Alcohol	

DNA® Isopropyl Alcohol Cleaner is of laboratory grade and specifically used for cleaning surface areas prior to painting. Leaving no residue this product is safe to use on most plastics and elastomers, as well as over previously painted surfaces.

Isopropyl Alcohol Cleaner is suitable for the removal of surface grime immediately prior to paint application. Also suitable for general cleaning and has strong anti-bacteriological qualities for disinfecting of surface areas. Other applications are; cleaning electronic pins, contacts & connectors, computer keyboards, screens and computer equipment, telephone handsets, semi-conductors, electronics, fibre optics, PC boards, relays and other electronic devices, semi-conductors, office magnetic tape heads as well as medical equipment.

Isopropyl Alcohol Cleaner *Always check that you have the latest TDS*

MSDS

Observe all safety precautions in relation to this product's Material Safety Data Sheet

SAFETY

Always wear appropriate safety clothing, gloves, breathing & apparatus

STORAGE

Several years in cool, dry conditions

APPLICATION GUIDE:

1. Always test on a small inconspicuous area for compatibility.
2. Wipe dry with clean lint free cloth, or blow dry with deionised air.
3. Soak a clean cloth with Isopropyl Alcohol.
4. Treat only one small area at a time using a 'two-rag wipe' technique, wet one rag with Isopropyl Alcohol and wipe the entire surface area with it and DO NOT allow to evaporate from the surface.
5. Use the second rag to immediately wipe the wet Isopropyl Alcohol from the surface BEFORE it evaporates! Allowing Isopropyl Alcohol to dry on the surface without wiping re-deposits the surface grime as the Isopropyl Alcohol dries.
6. Change cloths often, never use dirty cloths.
7. Do not spread contaminants being removed over other areas being cleaned. Any residue left may later discolour or cause stains.
8. When cleaning deep, narrow joints wrap the cleaning cloth around a clean narrow metal blade or putty knife to enable force to be applied to the surface being cleaned.
9. Clean only as much area as can be sealed in one hour. If cleaned areas are again exposed to any contamination or weather, the surface must be cleaned again.
10. Change cloths often, never use dirty cloths. It is important to thoroughly clean the surface before any sanding operation. Sanding would grind contaminants into the surface.
11. Close container tightly after use. This prevents the cleaner from evaporating and losing its effectiveness.
12. This fast evaporating product is particularly suitable for cleaning surface areas prior to applying Virtual Chrome™, Black Chrome™, HolaChrome™, HolaGrafiX™, HolaSpeX™ and similar products.

Important Information:

- Always check you have the latest Technical Data Sheet
- Always buy enough product to complete the entire job
- Products are for Professional Use Only

Warranty:

DNA will replace any faulty or defective goods.

You must always spray out a test panel and fully test prior to commencing any job to determine suitability, final finish and overall appearance. Goods are guaranteed for 12 months if stored in cool dry conditions. All information and data provided is given in good faith and intended as a general guide only for use by qualified professional painters and DNA will not accept liability as a result of any failure or lack of expertise on the part of the applicator, condition of substrates, lack of preparation, use of incompatible materials, equipment failure, use of incorrect equipment or any other reason beyond the control of DNA and further offers no warranties of whatever nature express or implied as to merchantability or fitness for a particular use or purpose and shall not accept liability for any specific or consequential damage as a result of using these products unless otherwise agreed to in writing. DNA paints reserves the right to make changes to formulations and on rare occasions batches may have slight variations such as colour or tone, these are not covered by warranty.

If any goods are defective, you must not proceed to the job. Stop work immediately and contact your distributor or DNA Paints and point out the defect. Any faulty goods must be returned at the customers expense to the distributor or DNA paints with a copy of the original invoice or other proof of purchase to obtain a replacement of the faulty product or a refund for the cost of the goods. The benefits provided to the consumer by the warranty are in addition to other rights and remedies available to the consumer under the law.
