Product Code	Product Name	
-----	<b>AEROSOL</b>	

DNA™ Aerosols are designed so anyone can create custom paint effects at home without needing professional spray painting equipment or purchase commercial quantities of paints and other products.

DNA™ Aerosols are perfect for small projects such as sculptures, artworks, car parts, bikes, motorcycles, surfboards, skateboards, RC cars, planes, furniture and almost anything else that you care to paint!

They are designed for easy use, Below are a few basic instructions for each of the products to help you achieve best results. Be sure to read the instructions for the specific product you are using.

For further information or instructions contact DNA™ via phone or our website: [www.dna-paints.com](http://www.dna-paints.com)

### Primary Instructions

Shake vigorously for 2-3 mins before use and as required during use. Always use in a well ventilated area.

Ensure item to be painted has been cleaned and prepared correctly.

Always test a small inconspicuous area for compatibility before starting any job.

Always spray in warm and dry environment. Between 15 ~ 30°C. Humidity below 70% is recommended.

Do not spray in windy or dusty conditions.

After use, if storing aerosol, fully invert can and spray until spray becomes clean. Remove the nozzle and clean if required before storing.

Clean up with DNA™ reducer/thinner or gun wash.

### Product Instructions

#### Wax & Grease Remover / Anti Static Cleaner / IPA

Working in small areas, spray item to be cleaned. Use liberally and as required. Dry item thoroughly, with a clean dry lint free rag or cleaning wipe. For larger areas, several rags may be needed.

#### Plastic primer

Ensure item is finely sanded with grey scotchbrite pad or similar. Clean item with DNA™ Anti Static Cleaner. Apply 2 very light coats, allow 5 mins between coats. Apply DNA™ product of choice.

#### Rub Through Primer / Metal Primer Surfacer

Suitable for most metals. Clean surface with wax and grease remover. Apply 3-4 coats as required. Allow 5-10 minutes between coats. Allow to dry 1 hour before fine wet sanding P800-P1200. Re-clean area and overcoat.

#### Basecoat – Ground Coats

Clean item with DNA™ Wax and Grease Remover or Anti-Static Cleaner. Plastic items should be primed with DNA™ Plastic Primer. Apply in light to medium coats. Allow 10-15 mins between coats. Clearcoat with DNA™ 1K or 2K Clear, or overcoat with DNA™ Candy, Metal Flake, Basecoat, Candy Basecoat or Colour Change colours. \*\* Some colours need a specific ground coat colour to achieve correct colour, see table below.

#### Basecoat Color\*\*

Aqua Blue  
Hyper Pink  
Lemon Bling  
Molten Red

#### Ground Colour

Ozone Blue  
Pink Pill  
White  
White

#### Colour Shift

Recommended for use over DNA™ Black Basecoat as ground coat, other colours can be used to achieve a different colour effect. Apply 3-4 medium wet coats, or until desired coverage, or effect is achieved. Allow 10-15 mins between coats  
Clear coat with DNA™ 1K or 2K Clear.

#### Candy

Recommended for use over DNA™ Silver or Metal Flake  
Other colour ground coats can also be used to achieve different colour effects. Apply in wet coats with a 60% overlap pattern to achieve even coverage. Allow 10-15 minutes between coats. Apply 4-5 coats or until desired coverage is achieved. Use care not to overlap onto areas already coated, as candies will get darker with more coats. Once fully dry (normally 15-20 mins), clearcoat with DNA™ 1K or 2K Clear.

**Note:** candy where exposed to high UV or sunlight for prolonged periods of time, will dull over time.

#### Candy Basecoats

For use over DNAspecific ground coat colours, see below. Apply in medium wet coats until desired coverage is achieved. Allow 10-15 mins between coats. Overcoat with DNA™ 1K or 2K Clear.

#### Basecoat Color\*\*

Blood Red  
Cherry Black  
El Nino Orange  
Midnight Blue  
Spilt Blood  
Tsunami Green  
Typhoon Blue  
Yellow Vortex

#### Ground Colour

Black  
Black  
White  
Black  
Black  
White  
White  
White

---

### Fluro Basecoats

Use over a white ground coat. Apply 3-4 medium wet coats, or until desired coverage is achieved. Allow 10-15 mins between coats. Clear coat with DNA™ 1K or 2K Clear.

**Note:** Fluro basecoats have limited colour-fastness. Not recommended for use where high UV or sunlight for prolonged periods of time as product will fade.

---

### Gun Wash

DNA™ Gun Wash is a heavy-duty cleaning solution specifically designed for cleaning spray guns and airbrushes. Jet nozzle to blast into those hard to rinse or clean areas of your airbrush or spray gun. Can be used for cleaning many items. Always test on a small area for suitability.

---

### Metal Flake

For use over ground coat/basecoat of your choice. Apply in medium wet coats until desired coverage is achieved. Allow 10-15 mins between coats. Overcoat with DNA™ Candy aerosols or DNA™ 1K or 2K Clear.

---

### 1K Gloss Clear

1K Clear is recommended for DIY and other finishes where you are simply wanting to seal your job and give your finished project some gloss. Apply in medium wet coats. Apply 2-3 coats, allowing 15 mins between. Allow to dry minimum 24 hours before handling. In colder environments, extended drying times will be required. **Note:** High gloss clear has a poor chemical resistance. Not recommended for use where exposed to weather or sunlight for prolonged periods of time.

---

### 2K Gloss Clear – Normfest™ Klarlack

Made in Germany by Normfest™, Tested and approved by DNA™, Klarlack is a true 2K Full Gloss Clear with activated hardener for professional results and high UV protection

**Before use**, Shake vigorously for 2-3 minutes, push the 'release' button at the base of the can to release the hardener and shake vigorously for a further 2-3 minutes. Allow 10-15 minutes between coats. Apply 1-2 coats or until desired coverage is achieved. Will be touch dry after 15 minutes and cured in 48 hours. Pot life is up to 48 hours. Compatible with all DNA™ Custom Paints and Trident™ Waterbased Airbrush Paints

**Note:** 2K Clear is a one-time use product, once activated contents should be used within 48 hours or discarded. **Contains Isocyanate. Always wear appropriate Personal Protective Equipment - PPE when using this product. Such as safety glasses, gloves and a appropriate brrathing mask.**
